The Countyside Code and your dog

The countryside is a great place to exercise dogs, but it's every owner's duty to make sure their dog is not a danger or nuisance to farm animals, wildlife or other people.

- By law, you must control your dog so that it does not disturb or scare farm animals or wildlife. You must keep your dog on a short lead on most areas of open country and common land between 1 March and 31 July, and at all times near farm animals.
- You do not have to put your dog on a lead on public paths as long as it is under close control. But as a general rule, keep your dog on a lead if you cannot rely on its obedience. By law, farmers are entitled to destroy a dog that injures or worries their animals.
- If a farm animal chases you and your dog, it is safer to let your dog off the lead - don't risk getting hurt by trying to protect it.
- Take particular care that your dog doesn't scare sheep and lambs or wander where it might disturb birds that nest on the ground and other wildlife - eggs and young will soon die without protection from their parents.
- Everyone knows how unpleasant dog mess is and it can cause infections - so always clean up after your dog and get rid of the mess responsibly. Also make sure your dog is wormed regularly to protect it, other animals and people.
- At certain times dogs may not be allowed on some areas of open land or may need to be kept on a lead. Please follow any signs.
